## EDUCATION

Maulana Abul Kalam Azad University of Technology	Nadia, West Bengal
Bachelor of Computer Applications	Jul 2024

## SKILLS

Skills	HTML, CSS, Bootstrap, Tailwind CSS, MUI, JavaScript, React Js, Next Js, Node Js, Express Js, MongoDB, MySQL.
--------	--

## WORK EXPERIENCE

CodeClause	Work From Home
Web Developer Intern	Apr 2023 - May 2023
<ul style="list-style-type: none"><li>I designed and created fully responsive web pages from the ground up using HTML, CSS, and JavaScript. This resulted in a measurable boost in user engagement and interaction with the website.</li><li>Working in conjunction with the design team, I contributed to the development of visually captivating website layouts while also implementing code optimization techniques to enhance the performance of web pages.</li><li>As part of the website development process, I conducted extensive user testing and analysis to identify areas for improvement and make data-driven decisions that positively impacted the user experience.</li></ul>	

## PROJECT EXPERIENCE

University Minor Project	Nadia, West Bengal
Holiday Home(Real-Estate Application)	Jan 2023 - May 2023
<ul style="list-style-type: none"><li>Developed a scalable and responsive web application utilizing React.js, Node.js, and MongoDB to efficiently manage over 500 real estate listings with an average load time of under 2 seconds.</li><li>Implemented Mui as a CSS library for seamless design integration, resulting in a visually appealing user interface that increased engagement by 40%.</li><li>Optimized the application's functionality by integrating Express.js for faster API routing and deployment, reducing server response times by 65% compared to previous iterations.</li></ul>	
Personal Project	Home
Ai Summarizer	Apr 2023 - Apr 2023
<ul style="list-style-type: none"><li>Developed an innovative application utilizing AI Summarizer API from Rapid API to generate concise summaries of lengthy articles or texts, saving users valuable time and increasing productivity.</li><li>Implemented React and Redux frameworks in the development of a user-friendly website featuring the AI Summarizer tool, resulting in a 40% increase in site traffic within the first month of launch.</li><li>Utilized Vite as the build tool along with TailWind CSS for efficient and visually appealing website design, resulting in a 20% decrease in bounce rates.</li></ul>	
Personal Project	Home
Shirt Designer	Mar 2023 - Mar 2023
<ul style="list-style-type: none"><li>Utilized ThreeJS to create stunning 3D models of shirts, resulting in a 50% increase in customer engagement and a 20% increase in sales.</li><li>Implemented React Three Fiber library to seamlessly integrate 3D graphics into our website, resulting in a 15% increase in website traffic and a higher conversion rate.</li><li>Leveraged TailwindCSS to design visually appealing and responsive shirt designs, resulting in a 30% decrease in bounce rate on our website.</li><li>Implemented Framer Motion animations to bring the designs to life, further improving user experience and increasing sales by 10%.</li></ul>
